

P6623

Background Music - Amplifiers

Stereo amplifier (10+10 W), with 230 VAC power supply, to be used with any Sonelco controller.

GENERAL FEATURES

- 230V power supply

- BTL audio output 10 + 10W / 4 Ohm (RMS)

TECHNICAL CHARACTERISTICS

Power: 10 + 10W Impedance: 4 Ohm

Frequency Response: 78Hz - 20KHz

Maximum Consumption: 45W

Dimensions: 179x42x51 mm

INSTALLATION

The connection to the 220/230V electrical network will be made with wires of 1 sqmm section minimum and double insulation.
