

PH6081

Nurse Call Systems - Toilet Alarm System

A complete acoustic and lighting system for accessible bathrooms and changing rooms.

GENERAL FEATURES

The system is activated when an emergency call is made, using the cord call module.

The call is indicated with a red light & an buzzer sound.

Cancellation module is used to cancel calls.

A central sign module (optional), model PCH6006, allows displaying and listening to calls from up to 6 bathrooms, changing rooms, etc., fitted with the kit PH6081.

TECHNICAL CHARACTERISTICS

Colours: White

INSTALLATION

All modules are installed in EU standard back boxes (60mm).

They can also be surface mounted using SoneLco's supplement PC9006-01.
