

## P3266

Background Music - Centralisation

60 VA switched power supply unit.

### GENERAL FEATURES

Power supply in square type central format. It can be used as a power supply or as a main unit. In this case, to configure a main unit for new installations with a P9002 box, a P3266-01 power supply is required together with a preamplifier module, or one of the available sound sources. Also, a front plate KM9211-01 is required. Both the modules and the front plate are available in white colour only.

### TECHNICAL CHARACTERISTICS

<b>Maximum Power:</b>	60 VA
<b>Maximum Current</b>	4 A
<b>Mains Input:</b>	230 V AC 50/60 Hz
<b>V Output Adjusted Between:</b>	15 V DC
<b>Dimensions:</b>	142 x 146 x 50 mm
<b>Weight:</b>	385 gr.
<b>Colours:</b>	P3266-01 (White)

### INSTALLATION

In flush-mount back box P9002 or in surface box P9026 (available in white colour only) KM9211 mounting frame is required.
